Sinui	iju llowever, the underground telephone cable between Pyongyang and fell into disrepair, and was
esto	ored to operation by the North Korean government in 1950, was in good
essi ivid heck bser	air raids had forced many North Koreans into suburbs of large cities and into the smaller villages, many of them without possions or papers. For this reason, except in special cases where an inhal's actions or speech draws attention to him, security forces make not of citizenship certificates, even on main highways.*** No curfew is ved in most North Korean cities, and many rofugees move about at night, their belongings to places they consider safe.
	Chinese Communist propaganda in North Korea claimed that the
y us nd o	inists had captured tanks and other armored equipment ing only bugles and drums.**** many trucks ther vehicles in operable condition were scattered along the roadside en Kanggye and Kaechon. In almost all cases the engines and tires had removed from the vehicles and only the body remained.
